

## **What is the Lake Placid Bobsled Experience?**

The Winter Bobsled Experience is a half (1/2) mile run on the Lake Placid Combined Track with a driver and brakeman in an actual bobsled. You will reach speeds of around 55 miles per hour resulting in a ride that will last somewhere around 40 seconds. Each sled can hold up to three (3) adult size passengers with the two crew members. Four (4) passengers can be allotted depending on height and weight distribution. Riders have to be 48 inches or taller to participate in the Bobsled Experience.

## **What is the Lake Placid Skeleton Experience?**

The Skeleton Experience is a quarter (1/4) mile run on the Lake Placid Combined Track on a single person sled known as a skeleton sled. Skeleton is head first and you will be on the sled by yourself, however the ride itself is designed for those with no experience whatsoever. An actual USA Skeleton Team coach/trainer will be present to help with getting situated at the start and to give a few tips for completing the experience unassisted. The Skeleton Experience is available for ages 13 and up.

## **What is the Lake Placid Luge Experience?**

When available, the Luge Experience is a quarter (1/4) mile run on the Lake Placid Combined Track on a single person sled known as a luge sled. The experience is similar to skeleton with the exception of riding feet first on one's back instead of head first on one's stomach. Like skeleton, an actual USA Luge Team coach/trainer will be present and the ride is available for ages 13 and up.

## **How do I make a reservation?**

Reservations are best made over the phone (518-523-4436) during business hours, several days or weeks in advance. You can also make a query via email, but we find calling to be the most direct and thorough route for making a reservation at the moment. Reservations will be taken up to 48 hours in advance of the selected day of sliding. However, entire hours or days do book up quickly, especially Saturdays and holidays, so we recommend making reservations well before the 48 hour cut-off period.

## **I don't have a reservation or was not able to make one, what do I do?**

There will be walk-in tickets available on each day of sliding on a first come, first served basis. They go on sale each day when the venue opens and they have to be purchased in person. Walk-in tickets are not available on days or certain part of days when there group bookings. If you come in and the current session is sold out, you may purchase tickets for a session later in the day and come back for the selected time frame. Walk-in tickets are non-refundable.
